Guwahati, Assam | +91 7002398880 | MIS EXECUTIVE & IT Consultant | e-Governance Specialist |  
shontubiswas09@zohomail.in/shontubiswas09@gmail.com

---

## PROFESSIONAL SUMMARY

---

Result-driven and Strategic IT Professional with over 12 years of experience in technical coordination, MIS Management, and digital transformation for large-scale public sector projects. Expert in managing complex data frameworks and ensuring operational uptime for projects exceeding US\$200 million. Proven track record in stakeholder engagement, policy support, and capacity building, with a deep focus on leveraging technology to drive social impact and transparency.

## CORE COMPETENCIES

---

**Technical Coordination:** Infrastructure Management, 99.9% uptime maintenance, and disaster recovery.

**Data & MIS Management:** Real-time KPI dashboards, monitoring & evaluation (M&E), and impact reporting with Power BI.

**Policy & Compliance:** Expertise in World Bank standards and Public Procurement Acts/Rules.

**Stakeholder Engagement:** Liaising with government bodies, private sector partners, and international agencies.

**Digital Transformation:** Ne-GPA (National e-Governance Project) initiatives, ERP deployment, and capacity-strengthening training.

**Technology:** .NET Framework, VB.NET, SQL Server, ASP.NET, BootStrap, Python, Django, MySQL, Microsoft Azure AI, Gen AI, and Cloud Infrastructure.

## PROFESSIONAL EXPERIENCE

---

### MIS Executive & M&E (PM-KISAN / Digital Agriculture)

ARIAS Society (World Bank-aided APART Project & Govt. of Assam) |  
Guwahati

Feb 2019 – Sep  
2025

- Coordinated technical operations for a US\$200M+ rural transformation initiative, ensuring data integrity and scalability for 10,000+ users.
- Designed real-time executive dashboards to monitor KPIs, facilitating data-driven policy decisions and regional project oversight.
- Managed cross-functional coordination across geographically dispersed sites, reducing technical downtime by 15% through proactive systems management.
- Administered procurement compliance via World Bank platforms, ensuring 100% adherence to international transparency standards.
- Led digital helpdesk and capacity-building efforts, resolving 95% of technical issues and supporting state-level technology adoption.

## Software Developer & Business Development Manager

Origin InfoSolutions / Guwahati

Apr 2012 – Nov 2017

- Spearheaded digital transformation projects under the National e-Governance Plan (NeGPA), reducing manual processes by 30%.
- Directed the deployment of customised ERP and HRMS systems for various institutions, streamlining workflows for performance and attendance tracking.
- Acted as Technical Lead for mission-critical applications for Publication Houses and Accounting applications for Government/Private clients, ensuring high availability and system security.
- Consulted with private and government clients to design specialized accounting and management systems, increasing operational efficiency by 20%.

### Served as DPMU – Directorate of Panchayati Raj Institution of Arunachal Pradesh (FY- 2013 – 2014)

- Managed the district-level roll-out of a year-long project under the Directorate of Panchayati Raj Institution.
- Responsible for the scope of capacity building and comprehensive training of PRI officials in all districts of Arunachal Pradesh for the PES (Panchayat Enterprise Suite) application.
- Facilitated e-governance adoption and technical literacy among local governance representatives to improve administrative efficiency.
- Coordinated between state directorates and district-level units to ensure seamless project delivery and compliance.
